Judul Project

Arsip-in (Sistem Digitalisasi Arsip Berbasis Web)

Deskripsi Project

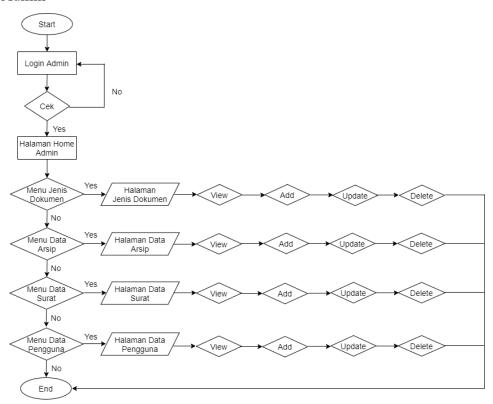

Sistem ini berfungsi untuk menjadikan dokumen berbentuk hardfile menjadi dokumen dalam bentuk softfile. Dokumen hardfile tersebut dapat discan terlebih dahulu baik menggunakan alat scan ataupun aplikasi scan pada HP, kemudian dokumen softfile tersebut dapat diupload ke dalam sistem. Misal seperti dokumen penting, selain itu juga terdapat menu untuk arsip surat masuk, surat keluar, dan disposisi surat. Digitalisasi dokumen ini bertujuan untuk mengurangi resiko kerusakan dan kehilangan dokumen.
